

MOHAMMADI MAHEEN NAAZ

Kalaburagi, India | +91 9148416064 | mohammadimaheennaaz@gmail.com | www.linkedin.com/in/mohammadimaheennaaz86a | Portfolio: <https://maheennaaz.github.io/Maheen-Portfolio/> |

SUMMARY

Results-driven B.Tech AIML student with proven expertise in Python, Machine Learning, Data Analysis, and Full-Stack Development. Recognized for academic excellence, innovation, and leadership in technical events. Passionate about leveraging AI and modern technologies to build scalable, data-driven, and user-focused solutions that enhance performance, automation, and decision-making efficiency.

SKILLS

Programming Languages: Python, Java, HTML, CSS.

Machine Learning & AI: Supervised and Unsupervised Learning, Model Building, Model Deployment.

Data Science & Analytics: Data Preprocessing, Data Analysis, Pandas, NumPy, Scikit-learn.

Tools, Databases & Frameworks: Git, GitHub, Bootstrap, Power BI, Tableau, MySQL.

Soft Skills: Communication, Problem-Solving, Leadership, Team Collaboration, Critical Thinking, Adaptability.

EDUCATION

SHARNBASVA UNIVERSITY, Kalaburagi.

B.Tech in Artificial Intelligence and Machine Learning | 2022–2026 | CGPA: 9.32/10.

GURUKUL PU COLLEGE OF SCIENCE, Kalaburagi.

PUC (Science) | 2019–2021 | 83.33%.

HUSSAIN PUBLIC SCHOOL, Kalaburagi.

SSLC | 2018–2019 | 94.24%.

INTERNSHIP EXPERIENCE

Rinex Organization - Data Science Intern

Jan 2024 - Mar 2024

- Conducted data cleaning and preprocessing on real-world datasets, improving model performance by 15%.
- Designed interactive Power BI dashboards to visualize trends and patterns, assisting in data-driven decisions.
- Built ML models (classification and regression) with 80-90% accuracy and presented actionable insights to stakeholders.

PROJECTS

Smart Voting System (Face Recognition Based)

- Designed and developed a secure voting platform using Python and OpenCV with 97% facial recognition accuracy, enabling real-time voter authentication and ensuring one-person-one-vote validation.
- Improved voting efficiency by 40% through automated verification and prevention of duplicate entries.

Mind Wave – Mental Wellness Web Application

- Developed a full-stack mental wellness platform to help users track moods, journal emotions, and receive AI-driven therapy suggestions for personalized care.
- Integrated sentiment analysis and chatbot support, increasing user engagement by 45% and improving emotional well-being tracking accuracy by 90%.

Intelligent Voice Assistant – STRIX

- Engineered an AI-powered Python voice assistant capable of executing 20+ automation and search commands with 98% speech recognition accuracy.
- Integrated advanced voice and API features to reduce repetitive task effort by 35%, improving overall user productivity.

ACHIEVEMENTS

- Awarded IEEE WIE Bangalore scholarship (2024 & 2025).
- Secured 2nd Runner-up position at IBM ICE DAY Poster Presentation.
- Achieved 1st place at Enlighten Code 2024 (Inter-University Hackathon).
- Represented university at State-level Hackathon (Srishti at Atria University).

CERTIFICATIONS

- IEEE Certification in Python for Everyone and Machine Learning.

- Certified in Data Science by Rinex.
- Cybersecurity Security Training - CySec, UI/UX Developer training - ICT Academy (Infosys Training Program).
- Workshops on Data Science, Data Analytics, Tableau, Power BI.

EXTRACURRICULAR ACTIVITIES

- Second Place – Division-Level Running (Dussehra Sports Meet).
- Runner-Up – Basketball Tournament (Dussehra Sports Meet).
- Second Prize – District-Level Painting Competition (District Science Centre).
